

Software Developer

Ritah Akullo

Email: rirah.area@gmail.com

GitHub: ritah akullo

Phone: +256766492628

Professional Summary:

As a skilled Software Developer, I specialize in designing, developing, and maintaining software applications. With a strong foundation in programming languages and extensive experience in building both front-end and back-end systems, I excel in addressing complex issues with efficient solutions. My attention to detail and robust problem-solving abilities ensure high-quality results. I am passionate about learning new technologies and staying current with industry trends. My collaborative approach and effective communication skills make me a valuable asset to any development team.

Technical Skills

- Programming Language(Python)
- Frameworks and Technologies
- Database Management
- Version control
- Problem-Solving
- Lean and Agile methodologies

Soft Skills:

- Effective Communication
- Project Management
- Problem-solving
- Collaboration
- Adaptability
- Critical thinking

Experience

Project 1

DayStar Daycare App

Refactory Academy Uganda

- Redesigning User Interface: I redesigned the User Interface (UI) of an application to enhance user experience, focusing on usability and accessibility.
- Streamlining Babies and Baby sitters' Registration: I streamlined the registration process to decrease dropout rates, making the system more efficient and user-friendly.

- Editing Declined Applications: I enabled easy editing of declined applications, allowing applicants to make necessary adjustments and resubmit, improving the overall application process.
- Technology Utilization: I leveraged various technologies including React JS, React Native for development, Trello for project management, and Microsoft Teams for communication and meetings.
- Usability and Efficiency Improvement: I focused on improving usability, efficiency, and satisfaction for both agents and administrators by addressing key challenges in the existing system.
- Collaborative Development: I worked in a team of apprentices, utilizing collaborative tools and methodologies to ensure successful project completion.

Education

- Certificate in Python Development, Refactory Academy Feb2024 - May 2024
- Uganda Certificate of Education, Lira Town College 2022 - 2023

Languages

- English
- Luo
